SUMMARY

B.Tech graduate in **Artificial Intelligence and Machine Learning** with a Minor in **Robotics & Automation**, currently working as a **Software Engineer Intern at Stackmod Innovation**. Skilled in developing data-driven applications, predictive models and intelligent automation systems. Seeking opportunities in AI/ML Engineering, and Software Development.

PROJECTS

1. Trip Geni

tripgenius-kohl.vercel.app

- AI powered travel planning platform that generates personalized itineraries, destination insights and voice-assisted travel guidance.
- Combines Hybrid RAG with contextual budget intelligence to deliver travel recommendations
- Technologies: Python, FastAPI, RAG, Gemini Multimodal AI, and Pillow.

2. Audio-Visual Deepfake Detection

- Utilizing CNN-based feature extraction for video frames and audio analysis
- Applying Transformer-based architectures for sequence modeling
- Technologies: Python, PyTorch, OpenCV, Librosa, Transformer Models

3. Deepfake Face Detection using Machine Learning

deepfakefacedetection.vercel.app

- Developed and evaluated machine learning classification models for deepfake detection using OpenCV and Scikit-learn.
- Improved detection reliability to enhance digital media authenticity
- Technologies: Python, Scikit-learn, OpenCV

EDUCATION

Bachelor of Technology - Artificial Intelligence & Machine Learning (2022-2026)
APJ Abdul Kalam Technological University

- Mangalam College of Engineering
- Minor: Robotics and Automation

Higher Secondary (Class XII) – Computer Science (2021-2022)
Central Board of Secondary Education

- Sainik School Kazhakkotam

SKILLS

Languages	Python, SQL, HTML, CSS, JavaScript
Tools/Frameworks	Pandas, OpenCV, PyTorch,Matplotlib, Git
Databases	MySQL
Other Skills	Problem Solving, Analytical Thinking, Teamwork, Adaptability

INTERNSHIPS & WORKSHOPS

- Completed Robotics & Drone Development Internship at Genzee T.
- Completed Robotics Internship at TechMaghi.
- Successfully participated in a Self-Driving Electric Vehicle Workshop.
